

# Learning Goals Reminder

- [go/cs302](https://go.cs302)

# Course Response Forms

## WHY?

1. Links on course calendar
2. If finish early, and would like to learn more about gender bias in teaching evaluations:  
<https://n.pr/2KNh8FP>

# Final Reflections

- What advice would I give a friend about how to learn the most in this course?
- If I were to teach this course, how would I change it?
- What have I learned in this course (either content or meta) that I could use in my future computer science courses? In my career?
